**Our Florida interpleader attorneys combine deep knowledge of state statutes, local court protocols, and federal precedents to protect your interests.**

Lyons Law Group's interpleader action team stands out across Florida for helping neutral stakeholders—escrow agents, insurers, and fiduciaries—navigate competing claims to the same funds or property. When banks, title companies, or corporate trustees face conflicting demands, we file interpleader complaints, deposit the disputed assets with the court, and secure an order that discharges you from multiple liabilities.

Our Florida interpleader attorneys combine deep knowledge of state statutes, local court protocols, and federal precedents to protect your interests. We handle every detail—drafting precise complaints, coordinating asset deposits, and vigorously advocating in hearings or trials.
